Dr. Edwards is in Florida Today!

November 2008

### Dr. Edwards is featured in today's Florida Today Newspaper! Featured Article

Susan Jenks, a Health and Medicine Reporter for Florida Today, contacted our office last week about Dr. Edwards and our Waterlase MD laser. She came to our office with a photographer in tow, interviewed Dr. Edwards and a patient that was in our office to have a laser procedure done that day.

Susan wrote a wonderful article on Dr. Edwards' use of the laser and general information on laser usage. If you receive the paper be sure to check it out on the front page of the Health and Medicine section; If you will not get a chance to see the paper today, here is a link to the published article at the Florida Today site

### We Have New Team Pictures Coming Soon

Our team got together this summer and headed over to the Gioia Photography studio in Merritt Island where we had new team pictures taken. Angelo and Yvette Gioia took good care of us and provided us with some amazing new photos. The team pictures previously on our wall across from our appointment desk were a few years old and needed to be updated. Now our newest team members, Lily and Cristi, will grace our photo wall. We are looking forward to hanging our new pictures and hopefully all of our patients will enjoy them, too.

The banner photo was provided by the Gioia's. To see more of their work visit their website at [gioiaphotography.com](http://gioiaphotography.com).
